Year 9 Assembly

Tues 15th

Year 7 Assembly

'BIG STRETCH'

From Saturday 24 October to Sunday 1 November, The 2020 Castaways School Sculptures Exhibition was held at Churchill Park in Rockingham.

WCHS students participated and their piece was titled 'Big Stretch', this aimed to highlight the importance of making time for ourselves and enjoying Rockingham's unique coastline.

A big well done to Harlee, Abbey, Michelle and all the other students who lent a helping hand over the last few months to make the project come together.

PRINCIPALS MESSAGE

Welcome to our mid-term 4 Bulletin.

Term 4 is busy! We have now farewelled our Year 11 and 12 students.

Our Year 12 Valedictory Ceremony was held on Monday 26th October at the Mandurah Performing Arts Centre. With COVID-19 restrictions, we were fortunate that we were able to stage the event and even more fortunate that we were able to issue more tickets than originally thought. I would like to congratulate our students on successfully completing their schooling. Thank you to our parents, carers and loved ones who have supported them and our school throughout their Warnbro CHS journey. I wish all our Year 12 students all the very best in their future endeavours.

Our Year 11 students finish the year on Friday 13th November. Like our Year 12s, they have been working very hard to meet deadlines in order to complete tasks, assignments and certificates. I wish them well for the end of their term and to remember if they require any support to complete tasks, then to please see their teachers.

We continue our Fogarty EDvance whole school improvement journey this term with our Exec Team attending workshop 8 and our Leadership Team attending their third workshop. The Executive focus is always on our strategic planning around our 3 school priorities and ensuring we are doing the work that makes a real difference to student outcomes. Our Leadership team are focusing on building effective teams and developing their action plans for 2021.

The School Board met on Tuesday 27th October. Ms Debra Bright, Associate Principal, and Ms Christie Simpson, Teaching and Learning Leader, presented some very interesting LINC's and LEAP data to the Board. Ms Bright and Ms Simpson shared that we are now starting to see that explicit teaching in LINC's and the explicit teaching of vocabulary in General Year 7 and LEAP classes is having a significant impact on student learning. The targeted work that is being done is making a real difference!

There has been a lot going on both in and out of the school with many staff working hard to get major school events, exams, professional learning, exhibitions, productions, excursions and incursions underway this term. We have had staff out visiting our five network primary schools promoting our LEAP program, as well as our students visiting to support programs within the primary schools. Our partnerships with UWA and Curtin are providing rich experiences for students with two of our Year 9 students gaining scholarships with UWA Aspire to undertake STEM activities during the up-coming holidays.

This Bulletin is full of good news stories, photos and presents a wonderful narrative of what has been going on here since our last Bulletin. I hope that you enjoy reading this edition.

Once again, thank you for all the support you provide to our students and our school.

All the best for the remainder of the term as we fast approach the Christmas period.

Kind regards,

Cindy

Teaching *A Bright Future*

WARNBRO WEDNESDAYS

Over the last few weeks we have had some exciting themes for our Warnbro Wednesdays for Term 4.

Our Warnbro Wednesday themes have been:

- Week 1: Factions
- Week 2: Book Week
- Week 3: Wacky Socks
- Week 4: Fabulous Fluro

Yr 12 Farewell Breakfast, Assembly and Walking the Street

On Friday 25 September, we saw our whole school community farewell our 2020 Year 12's. The day started very early for staff who came in to prepare and cook for the Year 12's for our traditional farewell breakfast. The students were treated to bacon and egg muffins, as well as fruit platters, and danishes. The breakfast was a lovely relaxed morning where the students were able to chat to each other, get photos taken, chat to their teachers, all while enjoying the lovely Sanbrook Theatre atmosphere with some well selected 'dining' music.

After breakfast the students attended their final school assembly – a chance for our school community to farewell the cohort and celebrate them. With some final messages of congratulations from Principal Cindy Kerr, Associate Principal Craig Chadwick and Student Services Manager Julie Grobbelaar our Year 12's had finished their last whole school assembly.

The final and most emotional component of the day was the final walkthrough. Our whole school community line the main street and the graduating class of 2020 walk down the street to the gate to a thunderous applause – celebrating their success and the achievement of 13 years of schooling.

As the students mingled at the front of the school for their final farewells, there was the symbolic locking of the gates. This is always a bittersweet moment, as it indicates that our students are no longer 'our' students – instead they are now the young adults that we have had the pleasure to watch grow and mature. We wish all our 2020 graduates all the best for their future endeavours. We know that they will be successful in whatever path they choose.

Year 12 Valedictory

On Monday 26th October the Class of 2020 gathered at the Mandurah Performing Arts Centre with their Family, Friends, Teachers and Special Guests to celebrate their Valedictory. At the end of what has been a unique and quite a strange year we were so lucky to be able to return to what seemed like normality.

The afternoon was spent rehearsing to ensure the night ran smoothly and showcased the many amazing achievements of our students.

An ex-student who graduated in 2012, Billy Terry, spoke with wisdom and feeling about his journey through school at Warnbro and beyond into adult life, and our Year 12's were a captive audience.

Speeches were delivered by our Principals and special guests, citations for awards were read and each student's success was celebrated as they crossed the stage to a great applause. The evening was a great success and a proud moment in time for all. As a school we are proud of our 2020 graduates and look forward to hearing about their journeys as they enter an adult world which will hold challenges, surprises and hopefully lots of success for each of them.

Course Awards

Course	Award Winner
ATAR English	Alisa Farruggio

REMEMBRANCE DAY 2020

On Wednesday 11 November, we held an assembly to commemorate Remembrance Day. Our Student Leaders played key roles in the ceremony and special guests were invited to attend. Our special guests included Hon Paul Papalia MLA, Riria Grant and Returned Services League representatives.

Year 9 student, Abbey, was the Master of Ceremonies and firstly welcomed Ms Mulholland to acknowledge the traditional owners of the land and then welcomed our Principal, Cindy Kerr to Address the assembly. Kiara and Gaby sang a beautiful rendition of "Lest We forget", Ethan delivered the Remembrance Day speech and Madalen, Jennifer and Emma who recited a Remembrance Day poem by Rupert McCall.

At the conclusion of the ceremony our special guests were invited to share a morning tea with Warnbro CHS staff and students.

Book Week

Week 2 for Term 4 was Book Week and the theme for 2020 was Curious Creatures Wild Minds which led the English department to run a variety of activities.

In English they created Monster bookmarks and then designed their own curious creature cookie, wrote an advertisement for the cookie and then created it using icing, lollies and plain biscuits.

Book Week concluded with an author visit for 8.1 with Leanne White who is a local Australian Author and Illustrator. Leanne presented a workshop to our Year 8's looking at how to use imagination and make a simple box into a little boy through illustration. She also showed the students how she was able to use everyday objects look like animals – such as a lightbulb becoming a penguin.

The students are studying graphic novels and this session assisted in their illustrations.

A big thank you to the City of Rockingham for supporting Book Week and coordinating the visit.

OCTOBER BIKE MONTH

Warnbro Community High School supported October Bike Month 2020. Our Chaplain, Christina Stonessmith promoted the Bike Month with a chance for our students to WIN one of four bikes.

We provide students with something called Fleet Points, in which they can be collected for:

- Attendance
- Uniform
- Behaviour - 3B's
- Picking up rubbish

Fleet points can then go toward rewards throughout the school year.

Our winners of the Bike Month competition were as follows - they were all very excited and their parents/ guardians more so!

Eva - Year 8, said her old bike was old and rusty and she was very much looking forward and anticipating to win a new bike!

Chase - Year 8, was speechless!

Osamu - Year 7, said he had heard the first 3 names called and was upset he hadn't won, then heard his name called and was so eager to get to Admin he walked straight past!

Maison - Year 10, was very grateful!

Congratulations, you all deserved it and put in so much effort to win.

Warnbro Community High School had 16 Year 10 students who have been accepted into the Industry Links Program for 2021 attend the South Metro TAFE Building and Construction Work Ready program. This course offered by TAFE is a 5 day program covering a variety of topics related to the Building and Construction Industry.

Students were able to complete their White Card whilst on the course. The lecturers were extremely pleased with the students enthusiasm to learn and the way they conducted themselves while representing Warnbro Community High school.

Well done boys, you have started the path to your futures with great success.

TRY-A-TRADE

Interschool Athletics

On Monday 26 October, Year 7 - 10 students from WCHS went to HBF Stadium for the Interschool Athletics Carnival. Students represented WCHS really well and tried their hardest all day.

Well done to Alexis in Year 8 who was the Year 8 Girls Athletics Champion.

year 7 Adventure Recreation Camp

In Term 3 the Year 7 Adventure Recreation students embarked on their first expedition to Perth Hills Discovery Centre. Students were put to the test as they used their navigation skills to guide the group to a spot on the map to enjoy some lunch, before navigating back to camp. After a long day, the challenge was successfully completed and students were incredibly proud of their efforts. On our final morning, we were treated to an Animal Encounter where students met a very special echidna who loves belly rubs. A very positive first expedition for the group!

YEAR 7 AND 9 ADVENTURE RECREATION CAMP

Day 1

On the 28th to the 30th of October we went on a camp with the Year 7 Adventure Recreation class to Margaret River. On day 1 we packed the trailer at school and made our way to Margaret River. We stopped off in Bunbury for fuel and then proceeded to Wilyabrup Sea cliffs to start our 9km hike along the Cape to Cape Track. We eventually arrived at Gracetown at 5pm after 4 hours on the trail. From there we bus shuffled and arrived at Prevelly Caravan Park at 6pm.

Day 2

We woke up, had breakfast, got on the bus and drove to Redgate beach to go surfing. When we arrived we adventured along the rocks before the surfing instructors arrived. We then geared up and made our way out into the surf. The waves were big, however, everyone had a go! After 2 hours in the water and feeling pretty tired we headed back to camp to get changed and eat lunch. After lunch we got back on the bus and headed to Carters Road for mountain biking. We did 4 trails which ranged from easy to moderate in difficulty. Several students were tested physically, however, everyone enjoyed the experience. After 2 hours on the bikes we headed back to camp to complete leadership activities with the year 7 students. At 8pm we debriefed the day's experiences and then slept.

Day 3

We packed up around 5:30am and helped others while having our breakfast. The Year 9's left for Giants Cave. This is a self-guided adventure cave that goes 76m below ground and extends for 800m. From there we headed to Vasse for lunch and then proceeded back to school. We arrived at 2:20pm, unpacked the trailers, cleaned the buses and then headed home for a much needed sleep.

Rochelle - Year 9 Adventure Recreation student

Year 8 Adventure

Recreation Camp

In the final week of Term 3 it was game on! After missing their Semester One expedition due to COVID restrictions, Year 8 Adventure Recreation students had a 4-day expedition in the South West Region of WA. This would turn out to be an expedition full of firsts.

Day one the class was going down, waaaaayyyy down! Down into the deepest accessible cave in Western Australia. Giants Cave is a cavernous walk into a cave that is millions of years old. The students clambered down stairs and ladders into a different world. A world without sunlight and sound. With sections with names like The Ballroom, its easy to see where the cave gets its name. After clambering their way out, we took the short drive to the nights campsite down at Hamelin Bay, for a good nights rest before the challenging day ahead.

Day two was a challenge of a different type. A fully packed hike of a distance of about 12km. Packed hikes are normally reserved for older year groups, but this group was keen to take on the challenge. After packing everything they would need for the next 24 hours, the class set off up the picturesque Boranup Beach. Although it's beautiful, it soon sunk in what they were in for, literally sunk in. The 6km stretch of soft sand was quite the challenge, but not as much of a challenge as the following stretch would be. The following 4km after the beach is a relentlessly steep incline, this stretch took its toll on the group but nevertheless they persisted and enjoyed the 2km downhill stretch into the Boranup Forest to the camp ground.

At this point I started to get concerned. Day three was a challenge like no other. It had been somewhat secretive and was known by the students as the Stevens Secret Surprise Stravaganza (the SSSS), a task that was very physically and mentally demanding. As the students set up their tents, I drove the support car to pick up the bus, knowing that when I returned and explained what the SSSS was to them, that they would not be keen after such a physically challenging day and we would have to seek an alternative. As I drove the bus into camp, I was surprised to see enthusiasm and a different bunch of students to the ones that I had left 40 minutes earlier. Maybe all was not lost?!

After dinner I shed some light on the SSSS. It was an orienteering course that I had set up over the weekend. The students would receive a map and compass each, there were 11 points marked on the map, each point came with a clue to help determine the location of a small container that contained part of a fragmented message. The challenge was to collect all clues and decode the message, there was one catch, to be able to collect all clues the group would not only have to navigate successfully but cover approximately 27km over the day, with the final clue being located at their next campsite at Conto Camp Ground. Given the day that we had just experienced, I gave them an opt out option and we could come up with a Plan B. Their response was, "Nah, we got this!"

Day three and the SSSS was in full swing, spirits were high and the kilometres ticked down and clues came rolling in. As the group make their way through the forest and navigated a maze of tracks there was something amazing happening, a shield of positivity that was keeping them going and focussed on solving the task at hand. After about 22km and 7 clues found, disaster struck, clue number 8 was nowhere to be found, they had narrowed it down to a small area, but as the sun got lower in the sky, it was time to make a B-line to the campsite. 26km was covered over the day, not including searching for the clues in the areas. Although the code was not quite cracked, the class had proved themselves as winners. The level of resilience, determination, leadership and support to their peers, was like nothing that I had seen before.

Day four was a little more relaxed. The group visited the Eagles Heritage Park to see some rehabilitated birds of prey. The experience started with an educational walk around the facility, looking at a wide variety of birds, including; the Peregrine Falcon which can fly up to 390kmph making it the fastest animal on the planet, and the Wedge Tailed Eagle, with a wingspan of up to 2.84m making it the largest bird of prey in the world. The finale was a show including Black Kites that zoomed down to collect food that was hurdled towards the class, and an opportunity for the students to get up close with Ivey, a Barn Owl, that continued to bob her head from side to side, almost like she was dancing. The animal handler said, she may look like she is dancing, but really she is triangulating distance using her hearing to decide what she can eat next.

After a quick stop in Margaret River for lunch, we started the long haul back to WCHS. The group may have been tired, and ready for a good sleep, but there was a feeling about them, a feeling of accomplishment. If you see any of the Year 8 Adventure Recreation class around, they deserve congratulations for all that they achieved.

Year 11 ATAR Outdoor Education Expedition

Planning, paddling, plodding and prehistoric spelunking.... wait, what? This was the order of events for the Year 11 ATAR Outdoor Education Expedition.

The class completed extensive planning and preparation to ensure that their first stand-alone expedition would be a success. This included; planning locations, activities, leadership schedules, route planning and risk assessments. The expedition served more than one purpose, it was a stand-alone expedition for the class, but also a reconnaissance trip to investigate areas that they are looking to include next year when they lead an expedition for a class of Year 8 students.

Day one started with a 4 hour drive to Augusta River Mouth, where they would commence a kayak paddle on the Hardy Inlet. With such a long drive it was lucky that the students had prepared a playlist, however it was unlucky that many of the songs gave me an involuntary education of the discography of Harry Styles. Nevertheless, we pressed on and got through the drive.

The strong wind did not make ideal conditions for paddling. The class made the decision to press on but ensure that they hugged the shoreline to avoid being washed across the inlet. In sheltered coves the conditions were spectacular for paddling, on the other hand, in some of the open channels conditions were quite challenging. After 4 hours on the water the class pulled up north of Molloy Island. We then made our way to Conto Campground for the night.

Day two was a hike from Conto Campground to Boranup Look Out. Today the students would apply much of the leadership and navigation theory that they had learned back at school. 16km was the distance, not so hard right? It becomes a little harder once you consider that they had to carry all the things that they would need to exist for the remainder of the expedition. Midway through the hike, the class encountered a snake that was coiled next to the track, they followed the risk assessment process which meant they had to remain still and wait for the snake to leave. After a few moments that may have seemed like an eternity, the snake slowly slithered away. We finished the hike a little later than expected and made it to the campsite at Hamelin Bay just before it got dark. The class enjoyed a well-earned rest and hopefully a good night's sleep.

The final day involved some spelunking... that's right spelunking, spelunking is another term for caving. The students got to guide themselves through some prehistoric caverns that form what is known as Giants Cave. Despite the sore legs from the day before, the class managed to complete the many hundreds of steps, ladders and rock scrambling sections and navigate their way through the ancient cave formations.

After a brief stop in Margaret River for lunch, we made our way home, this time there was no Harry Styles education. I decided that the class would benefit greatly from listening to a long podcast about WWII that focussed on the Eastern front between Germany and Russia. I'm sure they thoroughly enjoyed it.

Year 7-10 Head Start Program
6 hours per course - 3 hours a day over 2 days
Courses available in:

Boost your results

Since 1986 ACADEMIC TASK FORCE has helped over 100,000 students boost their academic results.

Experienced teachers

We have a team of qualified, experienced teachers to help you maximise your school performance.

Get a head start on the year

Our Year 7-10 Head Start Program provides quality teaching to help students develop their academic skills, improve their performance and boost their confidence.

Results driven

In 2019, ACADEMIC TASK FORCE students who used our services achieved: 12 General Exhibitions, 11 Subject Exhibitions, 49 Certificates of Excellence and 264 Certificates of Distinction

NAPLAN + OLNA Preparation
Review NAPLAN questions with help from specialist teachers who will refine your child's skills and hone in on recurring problems.

GATE and Scholarship Exam Preparation
Your child will learn strategies and develop their skills in reading, writing, mathematics, quantitative & abstract reasoning. The course develops student's comprehension and abilities in responding to each part of the exam with feedback on their work.

Essay Writing

Your child will learn how to write great essays for any subject and develop skills to improve their writing.

Foundation Maths and English

Recommended for students in Year 7 and 8 who would benefit from some extra help, skills development, motivation and confidence in their high school studies. The class reviews concepts learnt in early high school years.

Advanced Maths and Intermediate English

Recommended for Year 9 and 10 students who like to consolidate their skills and be extended by learning new concepts and practising advanced questions.

Learning Skills

Learn study techniques, goal setting, homework strategies, time management and many more skills to improve school work.

Each ATAR course is 6 hours per subject delivered over 2 days.

With our proven ATAR Head Start courses you will:

- Gain an overview of the syllabus for your courses of study
- Receive expert teaching from ATAR specialist teachers
- Preview important concepts
- Build confidence and get an academic boost for the year ahead
- Receive an excellent refresher for students who commenced the new year's work in Term 4

Maximise your preparation with:

- **STUDY SKILLS:** Learn effective study methods, time management, goal setting, reading strategies and stress management techniques.
- **ESSAY WRITING:** Learn how to write great essays using a structure that you can adapt to any subject.

Only \$200 for a 6 hour course.

Start the new school year with confidence.

Boost your results

Since 1986 ACADEMIC TASK FORCE has helped over 100,000 students boost their academic results.

Get a head start to Year 11 & 12

Work through course materials in advance of school, in an interesting, time effective, step-by-step manner.

Experienced teachers.

We have a team of highly qualified, experienced teachers to help you boost your school performance.

Results driven

In 2019, ACADEMIC TASK FORCE students who used our services achieved: 12 General Exhibitions, 11 Subject Exhibitions, 49 Certificates of Excellence and 264 Certificates of Distinction

Academic Task Force and Academic Associates are part of the Academic Group
